

Welcome to EPMA 2019 in Pilsen, Czech Republic
Primavera Hotel & Congress centre, September 19th to 22nd

On behalf of the Congress Organising Committee and the city of Pilsen

it is our great pleasure to invite you to the 5th EPMA World Congress dedicated to the 10th anniversary of the EPMA providing particularly pleasant environment to the attendees for professional meetings and social events to celebrate EPMA achievements and to create future strategies for the fruitful international collaboration.

Its central location in the heart of Europe makes Czech Republic easy accessibility from almost all international destinations.

For the EPMA congress 2019 which for the 1st time is hosted in Czech Republic we have created outstanding scientific sessions and specialised workshops covering much cutting-edge research topics. See preliminary programme.

The specific scientific focus of our meeting is ***Predictive, Preventive and Personalised Medicine: The Key Role of Molecular Biological and Biomarker Research in Innovative Medicine.***

Social programme

September is lovely time to enjoy Pilsen. The area around the historic city center, whether on the park benches or in one of the nearby cafés or restaurants, offers a space for a pleasant walk, sitting and relaxing. Why not bring your family with you? Pilsen is a metropolis with unique flair and atmosphere. Convince yourself.

The city of Pilsen will offer you plenty of attractive activities. Worldwide Pilsen is known as a brewing city. In 1842, the first batch of bottom fermented lager was brewed, which then conquered the world under the name Pilsner Urquell. After the scientific programme, a tour of the brewery will be organized for you. On September 20 and 21, the traditional festival of microbreweries *Sun in Glass* will take place in Pilsen.

You can also look into the Old and Great Synagogues or the Cathedral of St. Bartholomew, which is the true landmark of the city.

The unique architectural gem created by the world-famous architect Adolf Loos in Pilsen in the 1930s is a collection of eight preserved interiors. In addition to the unique design, guided tours of Loos' interiors provide an interesting insight into the way the rich families of industrialists live in the First Republic.

Join us for the next impressive EPMA World Congress. We will do our best to make your stay in Pilsen an exciting and unforgettable experience.
