

Awardees of the Young Professional Workshop

at the EPMA World Congress 2024

Xianzhen Cai, The Second Affiliated Hospital of Shantou University Medical College, China

Evaluation of the use of EUROSCORE II to determine the prognosis of patients with moderate-to-severe aortic stenosis: a long-term retrospective study

Yuxian Wang, The Second Affiliated Hospital of Shantou University Medical College, China

The impact of metabolic pattern changes on cardiovascular-kidney-metabolic comorbidities: a cohort study

Shuxu Wei, The First Affiliated Hospital of Shantou University Medical College, China

Integrative multi-omics investigation of sleep apnea (SA): gut microbiome metabolomics, proteomics and phenome-wide association study (PheWAS)

Yingjia Lin, Joint Shantou International Eye Center of Shantou University and the Chinese University of Hong Kong, China

Clinical macular edema following uneventful cataract surgery in eyes without pre-existing fundus diseases: risk factors and treatment prognosis

Lixin Ke, The Second Affiliated Hospital of Shantou University Medical College, China

NMR-based metabolomics combined with metabolic pathway analysis reveals metabolic heterogeneity of colorectal cancer tissue at different anatomical locations and stages

Dandan Zheng, Shantou University Mental Health Center, China

Pre-COVID-19 short sleep duration and eveningness chronotype are associated with incident suicidal ideation during COVID-19 pandemic in medical students: a retrospective cohort study

Runhuang Yang, Capital Medical University, China

Deep learning model for pathological grading and prognostic assessment of lung cancer using CT imaging: a study on NLST and external validation cohorts

Xiao Li, Chengdu University of Traditional Chinese Medicine, China

Transcriptome sequencing provides insights on molecular mechanism of moxibustion in the treatment of osteoporosis
